Jeremy Thoe, CMC

Life Care Manager

Jeremy Thoe joined LivHOME as a Life Care Manager in the fall of 2012.

Jeremy previously worked as a case manager with Maxim Healthcare Services. While with Maxim Healthcare for four years, he oversaw and managed caregivers/nurses in private homes and facilities throughout Ventura and Santa Barbara counties. As a LivHOME Care Manager, Jeremy works directly with patients and their families, and he consults with other health professionals, communicating with them to properly assess and match patient needs with appropriate services.

Along with care management, Jeremy has experience in staffing, coordinating, recruiting, and marketing. He is also an active member with the Aging Life Care Association. This association is made up of care managers who use a client-centered approach to caring for older adults or others facing ongoing health challenges. Jeremy received his certification as a care manager through the National Academy of Certified Care Managers. NACCM ensures that care managers are qualified to perform the full range of care management tasks through validated, standardized examination.

Jeremy earned a bachelor of science degree in biology at Edgewood College in Madison, Wis., in May of 2008. Since that time, he has been working in the home health field providing a variety of services, primarily coordinating long-term continuous care for seniors in their homes. Along with this, Jeremy also has personal experience working with his aging grandparents to help them maintain a safe and independent lifestyle.

Jeremy can be reached at (805) 687-8766 or by email at jthoe@livhome.com.
